

White Paper 2009 for real estate redemption – valuation and compensation approaches

Project duration: 2008-2009

ÖIR did editorial work of scientific documents for the valuation and compensation of real estate in case of expropriation. The results were discussed with a group of experts in a round of workshops.

Based on these findings, the White Paper 2009 for real estate redemption gives a concise overview of legal and economic aspects as well as on procedures of real estate redemption. The final product comprises 131 pages and was published by SHIG where it can be ordered.
