

## Ex-ante Evaluation and Strategic Environmental Assessment of the ETC programme Austria – Czech Republic 2014-2020

**Duration:** 2013-2014

ÖIR was commissioned as expert consultant with the ex ante evaluation and Strategic Environmental Assessment (SEA) of the 2014-2020 operational programme for the promotion of cross-border cooperation between Austria and Czech Republic financed by the European Regional Development Fund (ERDF).

The ex ante evaluation shall ensure that the programme formulates its intervention logic in a clear manner and explains how it can contribute to the Europe 2020 Strategy. It shall also support the establishment of a functioning monitoring system that meets the evaluation requirements. The aim of the SEA is to examine the support measures of the programme with respect to their environmental compatibility already before the implementation decision.

**Project team:** Bernd Schuh; Sebastian Beiglböck, Stephanie Essig, Wolfgang Neugebauer, Stefan Philipp

**Client:** Office of the Government of Lower Austria
