

## NALAS Task Force Energy Efficiency, Technical Assistance Workshop in Priština

Period of performance: 2015

In October 2015, the NALAS (Network of Associations of Local Authorities of South-East Europe) task force on Energy Efficiency organised a workshop dealing with the issue of applying EU legislation for energy efficiency measures at local level in Priština. Member countries of the NALAS network comprise Albania, Bosnia and Hercegovina, Bulgaria, Kosovo, Croatia, Macedonia, Moldova, Montenegro, Rumania, Serbia, Slovenia and Turkey.

ÖIR prepared information on EU legislative framework and its relation to options for implementation at a local scale, including experiences from other European countries, in order to contribute to the support of Local Government Associations to deal with the challenges of energy related issues, to develop energy efficiency projects and identify potential available funding for the region.

Before the workshop ÖIR elaborated a survey to collect information on the actual situation in NALAS member countries and designed the workshop in close co-operation with mem-

bers of the NALAS network. In the course of the workshop in Priština, ÖIR provided input and moderated the discussion with the aim to stimulate with guiding questions and interactive moderation tools.

Finally a documentation of the workshop results including information about legal framework and from the previous survey was provided in a short report.

**Project team:** Ursula Mollay

**Client:** KDZ (Center for Public Administration Research) within the programme “Capacity building of the countries of the Western Balkans and the Republic of Moldova (BACID)”, funded by the Austrian Development Agency (ADA), implemented by the Austrian Association of Cities and Towns (AACT) and KDZ
